

## eBike Repairs

Dear Juicers!

Thank you for your interest in locating 'Hard To Find' repair shops and mechanics in your vicinity or region.

As you are well aware of and that's why you are here because in the '**Murky World**' of eBike repairs you already know most every bike shop "Will Not Touch" or repair both the 'Electrical' and 'Mechanical' components on eBikes that weren't purchased from them directly!

I continue to work very hard adding new repair shops and mechanics to the directory. **Please consider making a donation so I can continue adding and vetting more hard to find eBike mechanics that repair both 'Electrical and Mechanical' components on ALL eBikes so you can get back on the trails and enjoy our eBike!**

**Show Your Appreciation And Help Support the eBike Repair Directory!**

**Please Click Link To Donate:**

[https://www.paypal.com/donate/?hosted\\_button\\_id=B4AP82GBLT6W2](https://www.paypal.com/donate/?hosted_button_id=B4AP82GBLT6W2)

I'm confident you will get your eBike repaired by a reputable mechanic and will be Juicein' again very soon, otherwise your cool eBike would just be getting Dusty & Rusty!

**\*\* Additional Bonus:** I also included all my reputable connections I acquired over the years who sell eBike parts, upgraded components, motors, controllers, eBike kits, custom eBike builders, custom or new & rebuilt battery builders, education, eBike reviews and even cool riding trails that you will really like and need! This alone is worth a small donation!

**\*\*\* With the 'Scarcity' of eBike repair shops & mechanics I highly recommend you share this valuable "eBike Repair Directory so other eBike enthusiasts can get repairs!**

**Thank you for your generous Donations and sharing this valuable information!**

**Keep Juicein' my friends!**

**Regards, J Brown,  
ERD Team Gigawatts**

You are very fortunate to have an eBike Repair Shop in your vicinity/region, even though they are not in your neighborhood or down the street!

eBikers understand this dilemma, that's why they use our services and are very happy to drive the distance.

**Please 'Save' all this important information for future use!**

Below are the closest eBike Repair Shops. Please call each shop and determine which shop suits your repair needs.

**To search for your state press **Ctrl F** and enter state.**

**This following information was compiled By Jay Brown to help you locate hard to find eBike repairs in your state that work on BOTH electrical and Mechanical components.**
